Should the gates to be locked at the Moat?

MEMO has commissioned gates for the Moat space and they have now been installed for a length of time

We undertook a consultation asking residents whether they wanted the space to be locked and accessible via a key only. The results were inconclusive and as such the Management Committee have instructed for further resident consultation - following several complaints of noise and nuisance (anti-social behaviour) being generated by youth congregating in the area

Your completion of the short survey below would be greatly appreciated

1. Are you a user of the Moat space? (tick your choice)
 - Yes
 - No
 - Occasionally

2. Do you think the gates should be locked and residents users (upon request) would be supplied with a key?(tick your choice)
 - Yes
 - No*

**(if you have answered 'No' to the above, please would you provide comment on why you do not want this area locked.*
